PROFESSIONAL SUMMARY

Senior Android Engineer with **7+** years of experience building scalable applications across **Android Mobile**, **Android TV**, and **Android Automotive OS**. Skilled in **Kotlin**, **Jetpack Compose**, **KMP**, modern Android architecture, performance optimization, and **AI-assisted development**. Experienced in delivering production applications for global telecom, OTT, and automotive clients.

WORK EXPERIENCE

Tech Mahindra Limited – Senior Software Engineer

Nov 2025 – Present

- Delivered self-service and Wi-Fi optimization features by integrating external REST APIs with internal NMF libraries, supporting scalable and reliable telecom application workflows.
- Designed and leveraged **AI agents** to automate unit-test generation, improve code coverage, and streamline dependency analysis for version upgrades.
- Applied **AI-assisted development** to identify and remediate SonarQube issues, including cognitive complexity and excessive function parameters, improving code quality and maintainability.
- Contributed to code reviews, debugging, feasibility analysis, Agile development, testing, and release activities.
- **Key Projects:**
 - * **MyBell Mobile**, **Virgin Plus My Account**, **Lucky Mobile My Account**, **My PC Mobile (Prepaid)**

TO THE NEW – Senior Software Engineer

Aug 2022 – Nov 2025

- Developed scalable **Android TV** and **AndroidAutomotive OS** features with focus on performance, large-screen UX, and DPAD/remote navigation.
- Delivered **OTT** and real-time multimedia capabilities across global media and automotive clients, from development through testing, debugging, and release.
- **Key Projects:**
 - * **Astro GO (Android TV)**
 - Implemented DPAD navigation across **100+ channels** and **110K+ VOD assets**, with cross-device profiles, remote-optimized search, and startup/memory optimization.
 - * **Tata Play Binge (Automotive OS)**
 - OTT aggregation across **30+ platforms**, live TV, VOD, universal search, recommendations, watchlist, and cross-device playback.
 - * **Mutualink LNK 360**
 - Secure multimedia PTT platform with **WebRTC voice/video**, real-time location sharing using Google Maps, and cross-agency communication.

Mobcoder LLC – SDE II

Mar 2020 – Jul 2022

- **CricRadio** – Live cricket commentary and scores using **Socket-based real-time updates**, multilingual speech commentary, live chat, match analytics, and animations.
- **Xagon UPSC Flashcards** – Smart **UPSC** learning app with flashcard-based revision, spaced repetition, progress tracking, Google OAuth 2.0, Razorpay payments, and interactive UI.

- **TM Driver / TacoMar** – Food ordering and driver applications with **real-time GPS tracking**, order management, Google authentication, and payment integration.
- **Droom – Shoppers Community** – Shopping community application with product reviews, social features, Authorize.Net, and Google authentication.

TECHNICAL SKILLS

Programming Languages	Kotlin, Core Java
Mobile Platforms	Android Mobile, Automotive OS, Android TV
Frameworks	Android SDK, Jetpack Compose, Kotlin Multiplatform (KMP/CMP), MVVM, MVI, MVP, MVC, Clean Architecture, SOLID, OOPS
Databases	RoomDB, SQLite
Version Control	GitLab, Bitbucket, GitHub
CI/CD Tools	Jenkins, Automation Build Generation & Versioning
Operating Systems	macOS, Ubuntu, Windows
Development Tools	Android Studio, Gradle
Testing	Unit Testing, JUnit, Mockito, Robolectric
Payment Gateways	Cashfree, Stripe, PayPal (Braintree SDK), RazorPay
APIs & Services	REST, JSON, Google Location APIs, Firebase Notifications, Google Play Services
Others	Retrofit, LiveData, Crashlytics, Push Notifications, Socket.IO, Analytics, App Profiling & Monitoring, Safe Agile Framework, Social Login

ACHIEVEMENTS & RECOGNITION

- **Star Performer** – May 2025, Mar 2025 • **Team Award – Fastest Growing Team** – Feb 2023 • **Tata Motors Client Visit** – Onsite Automotive OS testing and client interaction.
